Professional Summary

Detail-oriented Python and ML developer with expertise in building scalable, user-centric solutions. Experienced in designing multilingual chatbots, developing ML models, and creating intuitive GUIs. Passionate about leveraging technology for accessibility, digital health, and real-world impact.

Core Skills

- Python, Scikit-learn, RandomForestRegressor, Data Preprocessing
- Machine Learning Model Development & Evaluation
- GUI Development (PyQt5), Event-Driven Programming
- Web Frameworks (Django), Backend Integration & Deployment
- Chatbot Architecture, NLP, Multilingual Systems
- Soft Skills: Problem Solving, Team Work & English Communication

Experience / Projects

SwasthyaSetuAI – Multilingual Health Chatbot (SIH 2025)

- Engineered a scalable chatbot integrating government health data and real-time alerts.
- Designed multilingual flows and system diagrams to boost accessibility and trust.

Car Price Prediction Model

- Built regression models using scikit-learn to predict car prices with high accuracy.
- Optimized performance through feature engineering and hyperparameter tuning.

Phishing Detection System

- Developed a phishing classifier using ML techniques and evaluation pipelines.
- Achieved strong precision by refining features and model selection.

Habits Tracker – Productivity App

- Created a sleek habit-tracking app with streak logic and progress analytics.
- Delivered modular backend and intuitive UI for seamless daily use.

Figmist – Anime Merch E-Commerce Site

- Built a full-stack anime merch store with dynamic listings, cart, and secure checkout.
- Used Django, JavaScript, and API integration to deliver a smooth shopping experience.

Hackathon Blueprints – Health, Safety & Energy

- Designed modular, visual architectures for high-impact hackathon problem statements.
- Delivered clear, scalable solutions under tight deadlines with team Backticks.

Education

- Bhilai Institute of Technology, Durg 2023-2027
  - Bachelor of Technology in Computer Science & Engineering (3rd Year)
- Delhi Public School (DPS), Durgapur 2023
  - 12th - 83.33%

Achievements & Leadership

- Led team **Backticks** in SIH 2025 hackathon, delivering end-to-end solution blueprints.
- Recognized for strong documentation and presentation skills in academic and professional settings.
- Participated in Innovathon a 6-hour Hackathon
- Successfully completed the Arduino & Python 3.4.3 test offered by the Spoken Tutorial Project, IIT Bombay

- Successfully completed the Digital Productivity course offered by NIIT foundation.
- Successfully completed courses on RAG, Generative AI & Chatbot Development from Simplilearn.
- Completed a 1-month course on Python with AI from Techonet pvt ltd.

Extra-curricular Activities

- Member of TechnoHub, BIT
- Member of NSS, BIT
